CONFIRMED / UPDATED CLIENT REQUIREMENTS

1. The website is to be developed as a PREMIUM SILVER COLLECTION e-commerce website with a high-end, polished, modern and luxury presentation.
2. Customer Login / Accounts: Login and registration are NOT required. Customers must be able to purchase directly as guests without creating an account.
3. Payment: Payments should be processed through Razorpay.
4. Offers / Attention Elements: The website should support prominent offer messaging such as "50% OFFER" and stock-attention messaging such as "3 stocks left" to create urgency and draw customer attention.
5. Website Opening / Entry Experience: The website should have a fabulous, premium entry experience when visitors first open the website, with an impressive opening animation / transition consistent with the luxury brand.
6. Real-Time Price Updating: Product prices should be capable of real-time updating so that the displayed price reflects the current price maintained by the business.
7. WhatsApp: WhatsApp integration should be included for customer communication and enquiries.
8. Order Processing Workflow: Similar to a Shopify-style e-commerce workflow, once an order is placed the system should process the order properly, record the order, update order status, and provide the required admin-side order management / tracking workflow.
9. Software / Platform Upgrade: The website software/system should be upgraded to support the premium e-commerce experience, modern administration, payment processing, real-time product information, and the required order workflow.
10. Premium Product Presentation: The overall product catalogue, product pages, offers, stock messaging, checkout and customer journey should be designed for a premium silver collection and should maintain a luxury presentation throughout.
